ABOUT ME

Software Engineer Intern with a Bachelor's degree in Computer Science and Engineering from **RUET**. Strong foundation in Linux systems, Bash and Python scripting, Networking, DSA and Problem solving. Experienced with Git, Docker, backend development, and AI-assisted automation. Passionate about cloud deployment, infrastructure automation, troubleshooting, scalable systems, and reliable engineering solutions.

EXPERIENCE

Intern

March 2026 - present

Samsung R&D Institute Bangladesh

Onsite

- Research and development involving LLMs, Hugging Face models, and AI-assisted automation.
- Developed and tested on-device AI solutions for resource-constrained devices.
- Worked with Linux-based development environments and software tools for AI model development.
- Performed technical research, experimentation, troubleshooting, and documentation for technology development.

EDUCATION

Bachelor of Science in Computer Science and Engineering

Jan 2020 - Aug 2025

Rajshahi University of Engineering and Technology

First Class

PERSONAL PROJECTS

Notes App

2025-26

A Laravel-based note management platform with secure authentication and database-driven functionality.

- Developed a full-stack note management application supporting note creation, editing, viewing, and deletion through CRUD operations.
- Implemented user authentication, database integration, and personalized note management features.
- Configured application environments, database migrations, and dependency management following Laravel best practices.
- Built with **Laravel, PHP, MySQL**, Bootstrap, HTML, CSS, JavaScript, Docker and Git.

TECHNICAL SKILLS AND INTERESTS

Languages: C++, C#, PHP, Golang, Javascript, Bash, Python, Java, Typescript

Systems & Infrastructure: Linux, Bash Scripting, Linux Administration, System Architecture

DevOps & Automation: Git, GitHub, Docker, CI/CD, Automation, Monitoring

Frameworks: Django, Laravel, next.js, express.js

Databases: Relational Database (MySQL, PostgreSQL)

AI/ML: Hugging Face, LLMs, On-device AI, Machine Learning

Coursework: Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Database Management System, Software Engineering.

Areas of Interest: Linux Systems, DevOps, Kubernetes, Cloud, System Design

Soft Skills: Problem Solving, Self-learning, Adaptability, Team-Oriented Person

ACADEMIC WORKS

Jan 2024 - May 2025

- **Thesis Work:** An Attention Enhanced Transfer Learning Approach for Fetal Brain Planes Classification.
- Lung Cancer Detection Comparative Analysis using 7 Machine Learning Models.

VOLUNTEER EXPERIENCE

2023 - 2024

- **RUET CSE Cultural Night** Volunteered in organizing and managing stage events to ensure smooth execution of the departmental cultural program.
- **RUET Career Fair** Assisted in coordinating company booths and guiding participants during the university's career fair to facilitate professional networking.

ACHIEVEMENTS

Python (Django) training under the Enhancing Digital Government and Economy (EDGE) project
